

JOBIN

1961

This trophy is the charm bracelet of a former member, Marjorie Jobin, who died in 1961. She requested that her bracelet be used as a perpetual trophy for beginning or inexperienced sailors only. The bracelet has been mounted on velvet and framed. This trophy shall, at all times, remain on display at the St. Petersburg Yacht Club. It shall be awarded to the winner of a series of pram races for the inexperienced sailors only. The grouping shall be left to the discretion of the Race Committee Chairman. The series shall be sailed once a year and shall consist of a series of three elimination races, if necessary, in each group, with the top two to five in each group sailing a series of five final races. 720s will be in effect. There shall be no charms or points given toward the High Point Trophy award for the eliminations. A keeper charm, a ring with a sailboat in it, shall be awarded to the winner of this trophy. The Jobin may be sailed only once by any individual. Second and third place charms may be awarded.
